Cable-Wound Triple Chime

The finest traditions of Continental architecture have influenced the creation of this magnificent wall clock. The flat pediment with dentil molding highlights the clock's exquisite crotch mahogany. Pilasters carved at top and bottom accent the clock's cabinetry, which is hand finished to a rich sheen. An elegant, arched, front locking door with skillfully-crafted beveled glass opens to reveal a large, polished lyre pendulum and brass weights and allows closer inspection of the bold white dial with its polished brass rim, Roman numerals, and separate second track disc. Beveled glass on each side of the clock permits a full view of the clock's pendulum and weights. A cable-wound, triple chime movement plays a selection of Westminster, Whittington or St. Michael's chimes. CENTENNIAL MAHOGANY finish. 70⁷/₁₆"H x 23³/₄"W x 13³/₈"D.
